

# *Samson Verified Natural* *(SVN)*

## Requirements

- ✓ All Source & Age (SAV) stipulations are required – See SAV Requirements flyer
- ✓ No antibiotics can be administered through feed, water, or injection from birth to slaughter
- ✓ Absolutely no hormonal growth promotants (HGP), beta-agonists or ionophores may be used on program calves
- ✓ Examples of HGPs
  - Reproductive hormones
  - Implants
  - MGA
  - Optaflexx
- ✓ If HGPs, antibiotics or other controlled substances are present, inventory control records must be kept showing purchases, uses, and physical inventory
  - Failure to keep these records will result in disqualification of calves
